

CmapTools

Download from <http://cmap.ihmc.us/>

Start

- At school, CmapTools can be found under Network Application
- At home, CmapTools can be found where you installed it or under programs.

Login

- CmapTools is a program installed on the local computer but has a network component to it. You must log in with the following details.
 - Name, User ID (same as school), Password (use your lunch code)

Creating a personal folder

- In the Views window, click the “Shared Cmaps in Places” icon.
- Hit the “+” next to “IHMC Public Cmaps (3)”
- Hit the “+” next to “Users (create your own folder...)”
- Scroll down to “Northbridge High School (NHS)” & right click to select “Add to Favorites”
- Right click on “Students” folder and under the “New” option select “Folder ...”. This brings up a dialog box for you to name you folder
- “New Folder” dialog box
 - Folder Name: (your User ID)
 - Click “Permissions”
 - Select you User ID and click on “Edit ...”
 - Click the “Administrator” option and then “OK”
- On your folder, right click and add “New → Cmap”

Physics folders

- “Northbridge High School (NHS)” → “JGorman-NHS” → “Physics classes” → “Physics Organizer materials” → “Unit Resources”

CmapTools Help

- The Help menu has many detailed instructions on how to create and jazz up your cmap.
