

Explain

Assorted presentation styles should be used to cater for a variety of learning styles. Not all presentation styles may be possible in the allocated time for participant experimentation.

NOTE: Teacher observation for identification of learning style may be preferable to student quiz. (It depends on the student and situation.)

Low Tech:

- Demonstrate use of OHT sheet for note taking
- Booklet for Fair Tests

High Tech:

Regular checking of available programs is worthwhile. Subscribe to relevant discussion boards and blogs (Try <u>about.com</u> and Learning Place communities)

- 1. <u>WordSift</u> on Scientific Method gives outline of what's coming, can be used for culminating activity to learn specialist vocabulary and to assess if essay type responses are on task with appropriate key words
- 2. <u>Wordle</u> on Science Skills shown below
- 3. <u>Tagxedu</u> on Scientific Method introduction or conclusion
- 4. Trackstar <u>Home page</u>, <u>Scientific method</u> (very detailed)
- 5. <u>Prezi</u>.

Participants: Reflection on Learning (on paper or digitally)
